## Consultancy & strategy

Capital contribution, privatisation, remunicipalisation, cost-effective state services, tax concessions – we have many years of experience in examining possible state aid in a wide variety of case constellations. Our great strength lies in the development of strategies and solutions for the structuring of state aid-compliant financing measures.

## Practice areas (selection)

- Identifying and analysing state aid
- Developing state aid-compliant solutions and strategies tailored to the unique case
- Assessing recovery risks
- Negotiating with the responsible federal ministries and/or the Commission
- Conducting proceedings before the European Commission, the Union courts and national courts

## Investigation proceedings & litigation

We represent you in review proceedings before the European Commission, before EU courts and national courts on the national effects of State aid law (“private enforcement”). We are well acquainted with the Directorates-General of the European Commission responsible for state aid control and the relevant federal and state ministries at national level.
